In the Name of Mary

Message 456, Marian Movement of Priests

"In the name of your heavenly Mother, yes, *in the name of Mary*, the Turks were defeated, when they laid siege to the city of Vienna, and threatened to invade and destroy the whole Christian world. They were far superior in strength, in numbers and in weapons, and they felt that their victory was assured. But I was publicly invoked and called upon; my name was inscribed upon their banners and shouted out by the soldiers, and thus through my intercession, there took place the miracle of this victory which saved the Christian world from its destruction. It is for this reason that the Pope instituted, on this day, the *Feast of the Name of Mary*.

"*In the Name of Mary*, Marxist communism, which for decades had been exercising its rule and holding so many of my poor children in oppressive and bloody slavery, had been defeated in these countries. Not because of political movements, or persons, but through my personal intervention, has your liberation finally come about.

It will again be in *The Name of Mary* that I will bring to completion my work with the *defeat of Masonry, of every diabolical force, of materialism, and of practical atheism*, so that all humanity will be able to attain its encounter with the Lord, and be thus purified and completely renewed, with the Triumph of the Immaculate Heart in the world."

Holy Malta

(Oct. 1, 2019 to Oct. 9, 2019)

People ask, what is in Malta? Hidden Malta has some of the most beautiful and historic places of interest in the world, especially regarding St. Paul, and yet it is largely unknown.

It is also the headquarters of Masonry.

We will be there on the Feast Day of *Our Lady of the Rosary*.

We are going to see these extraordinary places and call upon Our Lady in prayer. She will do the rest.

I won't tell you the daily activities here for lack of space, and Malta seems to be the best known secret in the world, but the word is getting out. For many reasons, it is getting the reputation as a "rich person's resort," but in reality, it is for everyone. I was able to obtain a 4-star hotel for our entire stay the AX Seashells Resort, where you may choose a room with a land view, or a view of the Mediterranean Sea. Check it out on your computer.

For its size, Malta has more than 365 Catholic churches, making it the most Catholic country in the world, per capita. We will be visiting both historic and stunning churches and locations, including a Village Feast at Our Lady of the Rosary Shrine. Our package includes breakfast and dinner daily.

The Islands are relatively small, but the Baroque domes of Malta's Catholic churches, and monasteries, dominate any view of the Islands. *It is one of the most intense Catholic places in the entire world!* Usually each church has an interesting history or a resplendent structure, each one having a profound story to tell, and each one celebrating some feast or event with great splendor. Regarding the churches, there is never a dull moment in Malta. We will be there for at least one or two special Celebrations. If we went to Malta just to see some of the most beautiful or historic churches in the world, it would be worth going there *just* for that reason.

However, Malta is also scenic, having many Gardens, Nature Reserves, Historic Architectures and Sites, Activities, Blue Lagoons, Rock Formations, Clear Best Beaches, Water Sports, Fishing, Fine Hotels, Walkways, Heritage Programs, Arts and Crafts, Waterfronts, Gourmet Cuisine Restaurants, Child-care Programs, Boating, Trails, Tours, Grand Old Yellow Buses, Local Wine, the Noonday Chimes of Gozo's Cathedral of the Assumption, Catching a water-taxi across the Grand Harbor, Victoria and the Citadel, Travel between Gozo and Malta, Best of Gozo, and Strategies for Seeing the Region around Camino, Marfa Ridge, Mellieha Bay, Sliema, and Valletta. We will be very busy seeing most of these things. Ria Music Ministry is coming with us. With this low price, 15 seats are already gone! PLEASE ACT SOON.
